## Guild One

# **COMBAT RESOURCE DEPLETION AND ASSET DEPRECIATION CAUSED BY** OFFSETTING PRODUCTION

GuildOne has deployed offset solutions in the oil and gas industry for nearly a decade, evolving with changing industry

and regulatory requirements to become

what is now known as Offset Studio.

Offset Studio is equipped to handle

the most complex scenarios, such as

identify and manage opportunities and

optimize revenue potential.

horizontal wells and spacing units through

the integration of new technology to better

## PROVEN VALUE SOLUTIONS

GuildOne's Offset Studio presents a significant, yet often overlooked opportunity to capitalize on already-owned assets. The solution is modeled around industry needs and has evolved to become the leader in its space. GuildOne welcomes the opportunity to partner with organizations to help them realize the potential of their asset base.

For more than two decades, GuildOne Inc. (GuildOne) has supplied advanced database solutions and business intelligence to the oil and gas industry so organizations can better understand and use data to enhance business performance

Since 2016, GuildOne has invested in the research and development of emerging technologies such as blockchain, machine learning and artificial intelligence, culminating in the release of its Royalty Ledger, the first successfully executed commercial network using blockchain technology to transact an energy smart contract.

A pioneering technology company, GuildOne recently launched the Energy Block Exchange (EBX), a blockchain business network for energy organizations. EBX is designed as a compatibility zone for the industry to share secure smart contracts, settle payments, and and privately sharing key facts enabling near-instant contract settlement.

Offset Studio identifies offset candidates and facilitates the analysis of land rights by using rights descriptions in conjunction with public data to calculate adjacent parcels of land, and then matching wells on adjacent parcels of land with rights from the land system to identify and manage offset opportunities.

OFFSET STUDIO PRESENTS AN OPPORTUNITY THAT SHOULD NOT BE OVERLOOKED TO SOLVE BUSINESS PROBLEMS THAT CANNOT BE IGNORED

### GEOSPATIAL TECHNOLOGY

GIS and mapping accurately identify all relevant wells, including offset situations that are specific to horizontal wells, maximizing revenue opportunities.

# IDENTIFY SPACING UNITS

Data and algorithms capture well spacing unit scenarios in different jurisdictions.

# TRACK REVENUE OPPORTUNITIES

Automated workflow features manage the identification and collection of missing revenue from beginning to end, ensuring opportunities are captured.
